Dividend Policy

The basic policy is to maintain and increase stable dividends while strengthening the financial position and corporate infrastructure, with a target DOE (dividend on equity ratio) of 2.5% or more. FY24 results: DOE 2.9%

Acquisition and Cancellation of Treasury Stocks

- Acquisition: Implement flexibly to improve the capital ratio and as one of the shareholder return measures to complement the dividend policy from a medium- to long-term perspective, taking into account the business environment, stock price trends, and financial conditions. FY24 results: 2.1 billion yen
- Cancellation: The ratio of treasury stocks shall be capped at around 10% of the total number of stocks issued, and any portion exceeding the maximum shall, as a rule, be cancelled.

FY24 results: treasury stock ratio to total shares outstanding 8.9%
